Front-end Students KPI *(Key Performance Indicators)* Descriptions

1. Static desktop view which you have to make as given in the test. Also, you have to make our static page to responsive on every screen we need to show them properly, following all UI rules that we follow on a large screen. And Error-free code and use basic semantics to build UI, class naming conventions, and elements rules.
2. Proactively pursuing the learning mission with a high level of energy & Curiosity, presence in the classroom, doing our work very carefully and responsibly, also maintaining discipline, like creating notes, preparation, ability to self-searching, and learning.
3. How to behave in the classroom and with their colleagues, Dressing Sense, way of communication/ talking in the classroom, and following the rules in the classroom.

We give points on the basis of KPIs, now you know very well what these are. It's necessary to score well in all KPIs. Points will be from 0 to 10 in all KPIs.
